II.1	Cấu hình DHCP, tạo 2 scope theo yêu cầu	 The screenshot displays the DHCP console in Windows Server Manager. The left-hand tree view is expanded to show the configuration for the server 'hoangnguyen-dc.univ.vn'. Under the 'IPv4' section, two DHCP scopes are listed: 'Scope [131.107.1.0] LANUNIV-2' and 'Scope [192.168.1.0] LANUNIV-1'. Below the scopes, various DHCP-related components are visible, including Address Pool, Address Leases, Reservations, Scope Options, Policies, Server Options, and Filters. The right-hand pane is divided into two sections: 'Contents of DHCP' and 'Actions'. The 'Contents of DHCP' section shows the selected server 'hoangnguyen-dc.univ.vn'. The 'Actions' section provides a context menu for the selected DHCP scope, with 'DHCP' and 'More Actions' as the primary options.
